Highwire Recognizes its Safest Contractors & Vendors

Safety Assessment Program - **Gold Safety Award**

Burlington, MA: Highwire, the Contractor Success platform for builders and owners of capital projects, has announced the recipients of its prestigious safety awards. **Lloyd W Aubry Co.** has received the **Gold Safety Award**. This award is presented to companies who score **between 85-94** on the Safety Assessment administered by Highwire.

"Management systems are critical to any company's ability to deliver successful outcomes and, most importantly, to keep their employees safe. **Lloyd W Aubry Co.** has done a remarkable job implementing a strong safety management system resulting in exceptional safety performance and results," says David Tibbetts, CSP, Highwire's Chief Safety Officer.

Highwire's Safety Assessment reviews a company's historic and current safety performance. The program provides a thorough, objective, and consistent evaluation of company performance so clients and contractors can identify, monitor, and mitigate risks more effectively. The results provide a strong indicator of how a contractor values safety and serve as a reliable predictor of future performance.

About Highwire: Highwire is the Contractor Success Platform for asset owners, general contractors, and facilities managers. The world's most admired organizations — including Skanska, Merck, and Bond Brothers — use Highwire to ensure their contractors and subcontractors deliver great work on budget and on schedule by collaborating with them to dynamically mitigate safety, financial, quality, and sustainability risks during capital projects and facilities maintenance.
